

Cultivating Cannabis

Harvest & Curing Lesson Homework

- Explore your spaces to determine the location that you will use to dry your cannabis plants!
- Review at least one of the videos on curing in the resources document.
- Purchase or build dry racks.
- Source the fans you will need to keep good airflow.
- Acquire a “loop” or magnifying glass to look closely at the developing trichomes.
- Think about where you will cure your buds... jars or bins?
- Think about long term storage, we like mason jars.
